

**Amendments to the Specification:**

Please replace the abstract with the following rewritten abstract:

-- A high capacity document sheet ~~processor~~ feeder for document stack feeding, hingedly mounted on a sheet transport apparatus capable of retaining a stack of sheets loaded edgewise thereon in both an operable position and a non-operable hinged upward position having loading feeding and singulating functions.--

Please replace the paragraph beginning on page 2, line 10 with the following rewritten paragraph:

-- The disclosed sheet processor feeds stacked, precut forms, provided in sequential order for placing in an inserter stream using a feed table, a generally vertical deck and feeder and singulator mechanisms. The disclosed sheet processor is adapted for feeding into an envelope inserter, or for inclusion in a continuous feed format handling device.--
